MATTIFYING LOOSE POWDER

The perfect mattifying finishing touch for a next-level Airbrushed Finish.

The super fine texture of this loose powder will seal your foundation to keep your makeup looking better for longer. Helps to create a flawless finish and diffuse light to disguise any blemishes.

BENEFITS

- Buildable matt effect coverage
- Shine-free and oil-absorbing
- Sets make-up without drying your skin.
- Includes puff for on-the-go application

HOW TO USE

The correct application plays an important role in achieving an airbrushed look. Press the puff into the skin under the eyes and then in a line from your forehead, down the bridge of your nose to the chin—as well as any other areas that are typically oily throughout the day. Use different shades for different parts of the face. Can also be used to give added definition to the face for highlighting and contouring.
